- **Problem Statement ID** – SIH26089
- **Problem Statement Title** – Cooperative Gig Services Platform for Household & Community Services
- **Theme** – Agriculture, FoodTech & Rural Development
- **PS Category** – Software
- **Team ID** – 136642
- **Team Name** – BharatGig

THE PROBLEM

Fragmented Hiring

Intermediary Dependency

Manual Operations

Rural Barriers

PROPOSED SOLUTION

A cooperative-owned marketplace connecting verified workers with customers — ensuring fair wages while digitising federation and society operations.

HOW IT SOLVES THE PROBLEM

Digital Marketplace

Customers connect directly with verified cooperative workers

Smart Geo-Dispatch

Matches by skill, availability and proximity

Integrated Services

KYC · Booking · UPI Payments · Welfare

Digital Administration

Real-time visibility: Federation → Society → Worker

INNOVATION & UNIQUENESS

Cooperative-First

Worker-centric, cooperative-owned platform

Rural-Ready

Offline-capable and multilingual for last-mile reach

Transparent Allocation

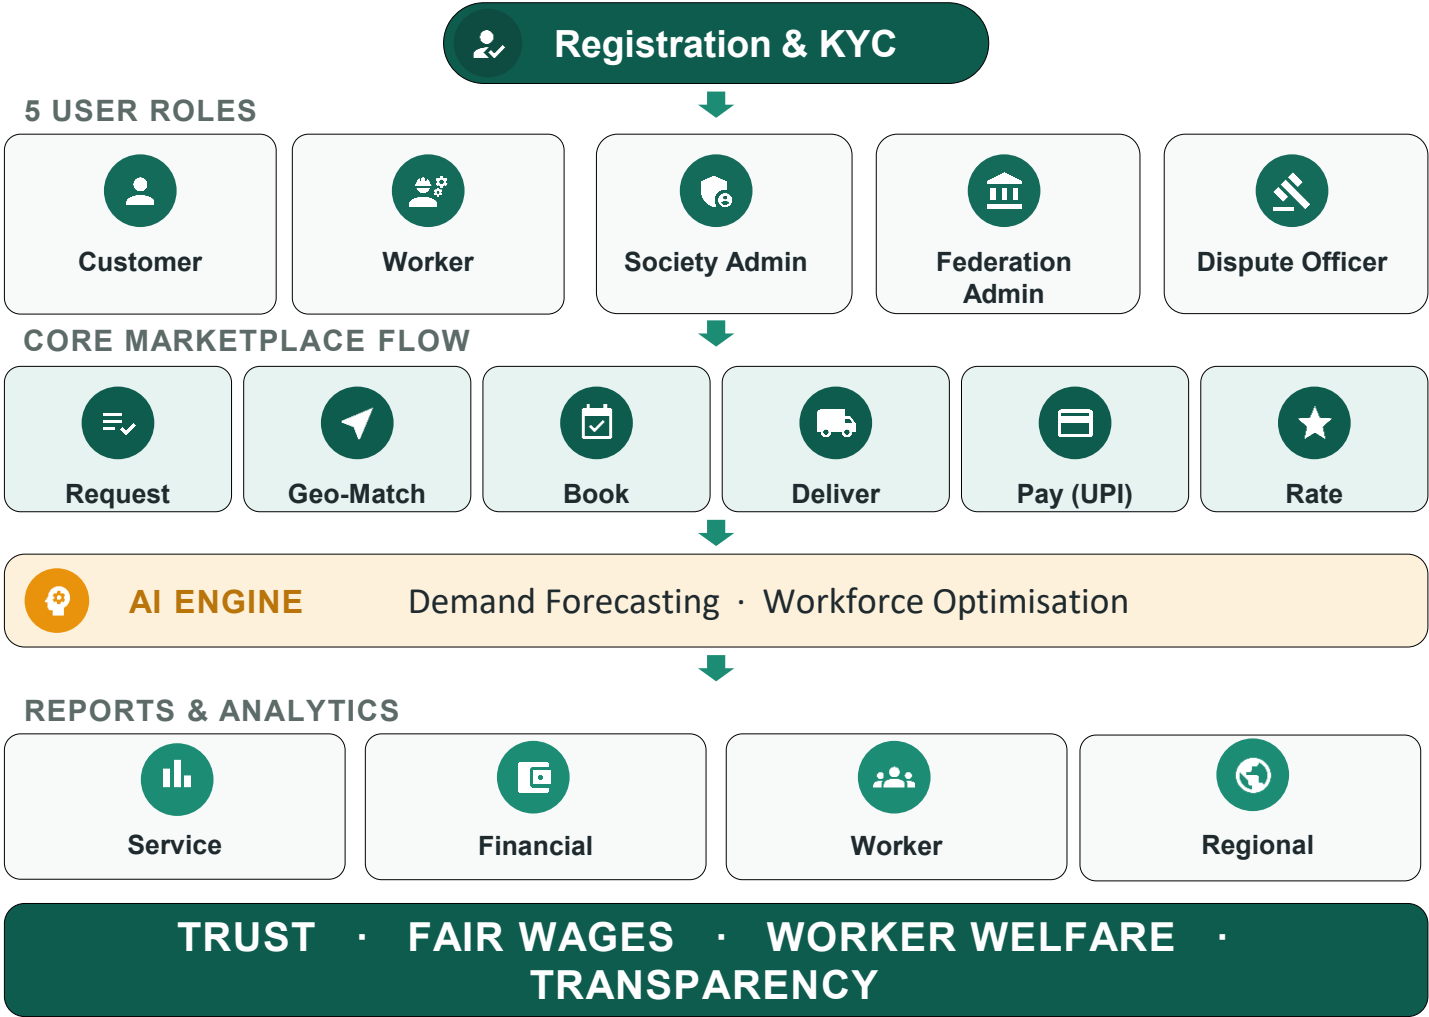

Rules-based, geospatial matching — no favouritism

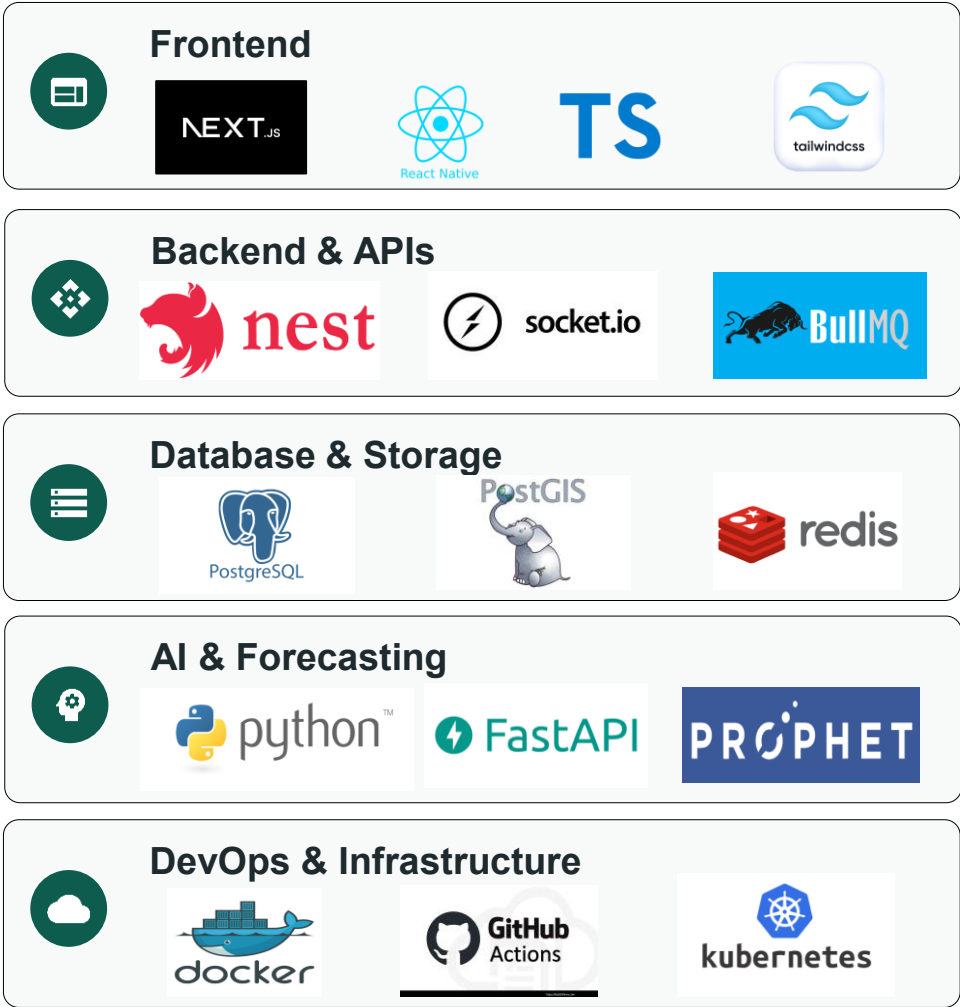

Ethical AI

Demand forecasting for fair workforce planning

TECHNOLOGY STACK

	✓ FEASIBILITY	⚠ KEY RISKS	🛡 MITIGATION
TECHNICAL	Proven technologies → scalable & deployable	Poor connectivity & digital literacy	Offline + localised app SQLite caching, simple multilingual UI
OPERATIONAL	Fits existing cooperative workflows → easy adoption	KYC, location & payment data exposure	Secure data isolation PostgreSQL RLS + encrypted storage
FINANCIAL	Lower commissions + automated UPI → sustainable	Service quality & payment disputes	Verified + resolved Worker verification + dispute officer

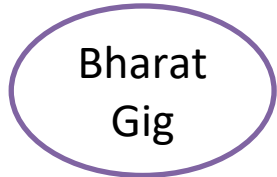

HOW VALUE FLOWS THROUGH THE PLATFORM

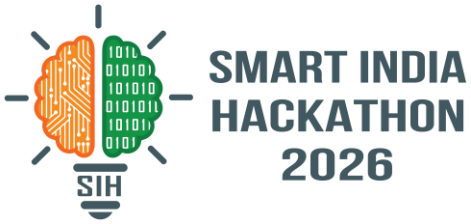

**OFFLINE & MULTILINGUAL**
Works without signal, in local languages

**SECURE & VERIFIED**
Encrypted KYC and identity checks

**TRANSPARENT UPI PAYMENTS**
Automated, traceable member payouts

IMPACT AND BENEFITS

WORKERS

- Steady jobs
- Fair wages
- Digital identity

SOCIAL

- Formalised workforce
- Welfare scheme access
- Dignity and safety

CUSTOMER

- Verified workers
- Reliable services
- Safer hiring

ECONOMIC

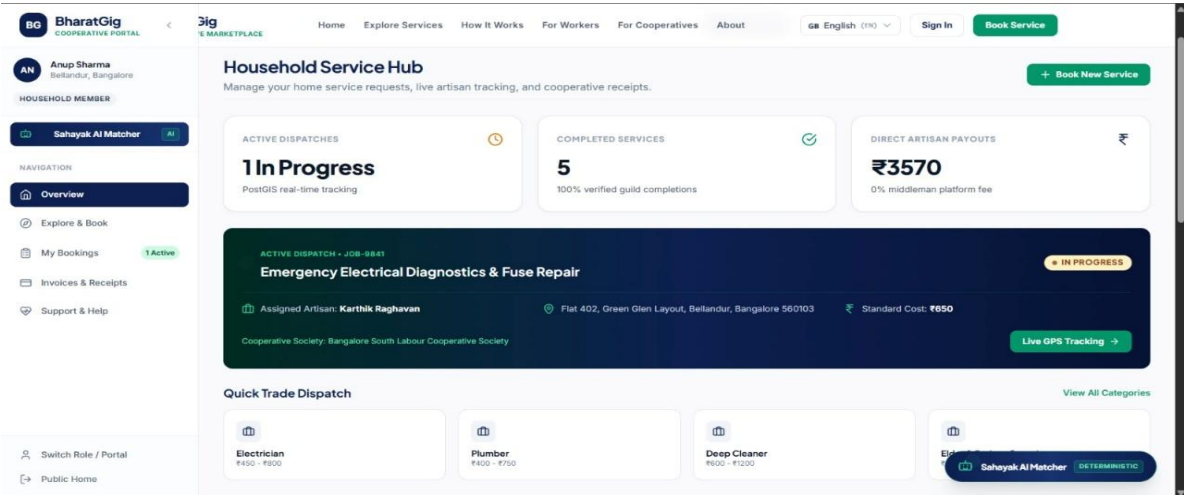

- Zero middleman cuts
- Instant UPI payouts
- Standardised fair pay

COOPERATES

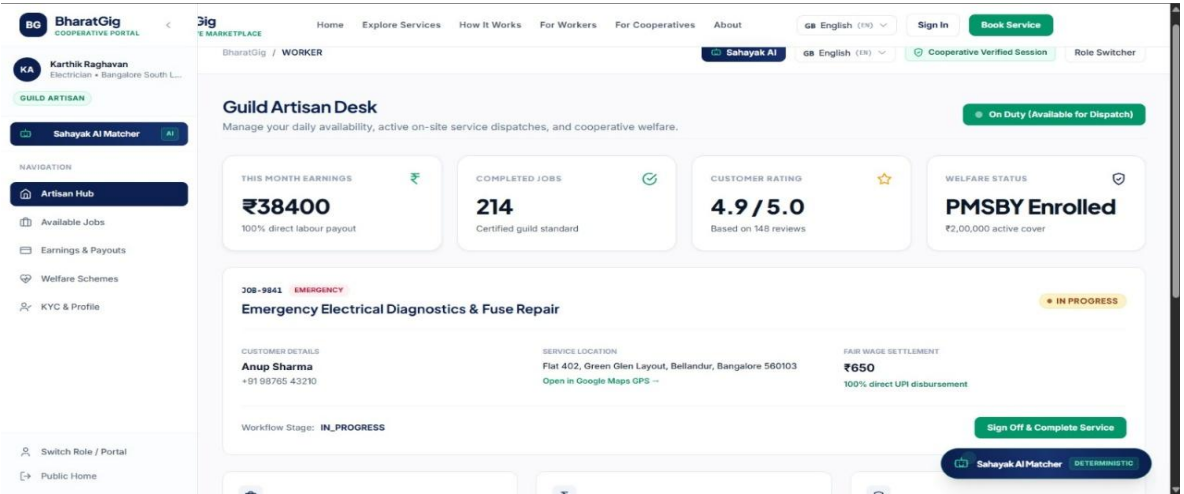

- Digital operations
- Real-time insights
- Transparent finances

ENVIRONMENTAL & OPERATIONAL

- Optimised travel routes
- Reduced transit time
- Lower carbon footprint

Worker Dashboard

RESEARCH & TECHNICAL VALIDATION

1. Ministry of Cooperation — National Cooperative Database 2023

→ Supports the **cooperative ecosystem, sectoral structure and vertical/horizontal linkages** across India.
[Ministry of Cooperation](#)

2. DPDPA 2023 — Digital Personal Data Protection Act, 2023

→ Guides **consent, purpose limitation and secure handling of personal data**.
[DPDPA](#)

3. TRAI TCCCPR 2018 — Telecom Commercial Communications Customer Preference Regulations, 2018

→ Guides **compliant sender headers, message templates and digital consent** for telecom communications.
[TRAI](#)

4. Offline-First Architecture — GSMA Mobile Economy India / NCAER

→ Supports **rural digital-inclusion and intermittent-connectivity considerations**.
[NCAER](#)

5. PostGIS Spatial Matching — Official PostGIS Documentation

→ **ST_DWithin + GiST spatial indexing** enables efficient distance-based filtering for worker matching.
